

Our Strengths

—AIDA Group Strengths by the Numbers—

Expertise in Technology and Product Development

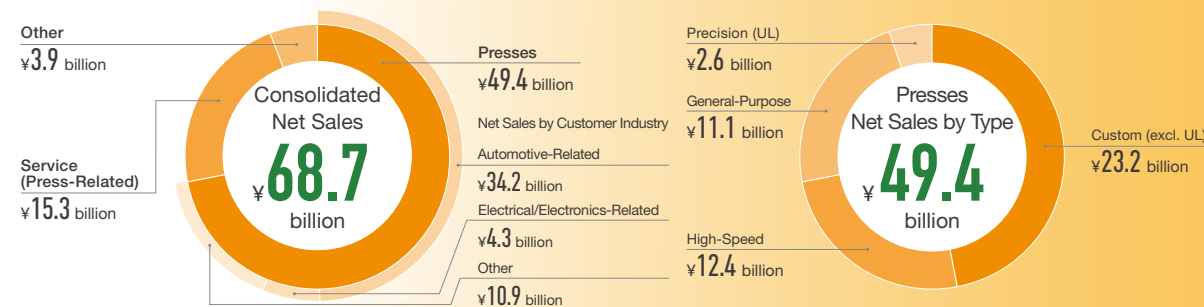

The source of the AIDA Group's competitiveness is more than a century of amassed in-house engineering and product development expertise. We have developed a wide array of presses, including the world's first direct-drive servo press that revolutionized metalforming technologies. In addition to presses, we have also developed and manufactured forming systems that include AIDA-original peripheral material feeders and automatic transfer feeders. Our strength lies in our ability to integrate these products to provide a full turnkey package. AIDA high-speed precision presses are used to make the drive motor cores that power EVs, FCEVs, and other next-generation vehicles, and our high global market share is testament to our overwhelming competitive advantage in this field.

A Sound Financial Position

Long-term trust and stability are essential qualities if customers are going to choose AIDA as the supplier of presses that will become long-life assets in their facilities. Our shareholders' equity ratio of 67.0% as of the end of March 2023 is one metric pointing to the stability and soundness of our business and its strong financial foundation. This gives our customers peace of mind when dealing with AIDA. Even amid difficult and fast-changing conditions, we have sufficient reserves to actively fund investments for growth, including R&D spending and strategic M&A investments.

Global Business Development

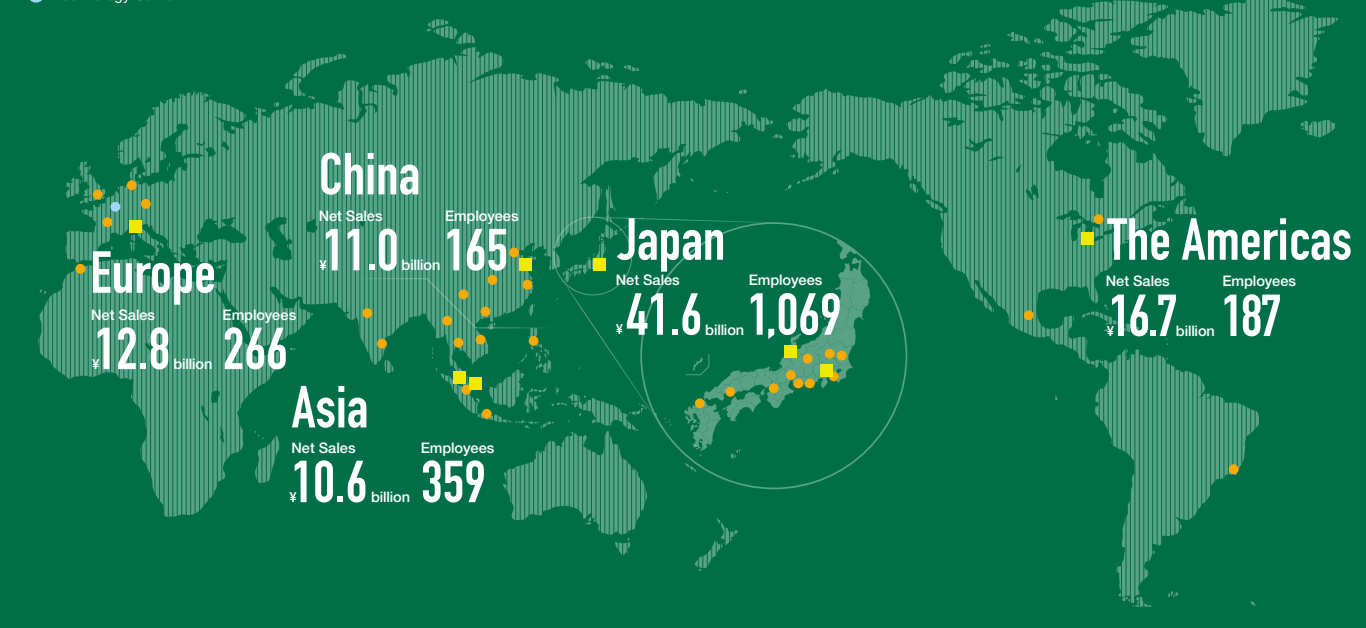

Because our customers are global manufacturers, we have set up manufacturing bases in five regions (Japan, China, Malaysia, the US, and Italy). We can also respond to the needs of customers worldwide through our network of 40 AIDA sales and service locations in 19 countries. Wherever customers have their production facilities, we can provide close and meticulous support to satisfy all their manufacturing, sales, and after-sales servicing requirements.
